

# The Gifted Education Centre

*To Go Beyond the Known*

## **Acknowledgement of Commitment for Parents of GO Team Students**

A GO Team is a co-operative venture between The Gifted Education Centre through their Gifted Online (GO) programme and your child's school. Your child's school will provide a teacher (and possibly parent helpers) to support a group of gifted students in their online learning, while GO provides lessons specifically designed for gifted children, opportunities for gifted children to network with one another to discuss their thinking and learning, and a virtual display space where children can share their work with their peers.

Schools receive no routine funding for programmes specifically designed to meet the needs of the gifted, and because of this, there is a fee for your child to participate. For GO Team students, this is currently \$15.00 NZ per week, with a minimum of one term's commitment.
